Oaykay tools is a widely recognized brand of hardware, products designed for true professionals who takes their tools seriously. Oaykay Combination Side Cutting Pliers provide grip & more power for easier working. These pliers are designed for extreme durability and up to 2X longer life. Oaykay Combination pliers are forged & multi staged oil hardened in India's finest manufacturing unit it provides unmatched quality. Features gripping zones for flat or round material and induction-hardened cutting edges that cut soft & hard wire. These Pliers are widely used By Artisans, mechanics, electricians and electronic repairers. These are used for gripping, cutting, compressing, bending, twisting, extracting etc. Oaykay goes all out to bring award winning innovation and quality to each product, the appearance, fit and finish of every Oaykay product will make you proud you own the very best. Oaykay products are built with a solid foundation that makes for ultimate strength and durability.

Specification

Type	Combination Plier	Packaging	Color Pouches
Material	Chrome Vanadium steel	Testing	Torsion test, Tube gripping test, Handle load test, Insulation test.
Finishing	Phosphate finish / Polished		

Feature -

Plier is forged from chrome vanadium steel for extended life and strength. Chrome-vanadium is the steel you turn to when you need an extremely strong and durable tool.

Flat serrated gripping zones hold flat and round material for more contact area & nonslip bite with less damage to work piece.

Induction Hardening & CNC machining Knife-to-Knife angle blade allows them to be strong yet sharp, producing a satisfyingly smooth, clean cut that require minimal effort to cut soft, hard, piano, and ACSR wire.

Tested in accordance with ISI standards & insulated to withstand a pressure of 2500 volts (rms) ac or 4000 volts dc.

Full body underwent rigorous heat-treated process, and as a result we have a more durable product strong from any angle better than our competitors.

Non-slip virgin acetate coated insulated handle grips with trapezoidal feature for safe and non slip grip .

Confirms to IS:3650 Standards
